## **DETAILED ACTION**

### ***Response to Arguments***

1. Applicant's arguments filed May 25, 2006 have been fully considered but they are not persuasive.

It appears that applicant traverses the rejection of claims 5 and 30 because the prior art generates more than two bits for each bit of first and second streams. However, since the claims do not restrict the number of bits for each input bit to two, the Calderbank et al patent still reads on the claimed invention.

2. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

### ***Claim Rejections - 35 USC § 102***

3. Claims 5 and 30 are rejected under 35 U.S.C. 102(b) as being anticipated by Calderbank et al (US 5,115,453 previously cited).

Calderbank discloses (see Fig. 1) an encoder for encoding a first bit stream (output from Scrambler 104), comprising:

means (110) for generating a second bit stream from the first bit stream, the second bit stream having one or more different corresponding bit values than the first bit stream;

means (124) for generating a first bit and a second bit for each bit in the first bit stream;  
and

means (122) for generating a third bit and a fourth bit for each bit in the second bit stream, wherein the means for generating a second bit stream comprises at least one of a ones

complementer and a differential encoder. See the means (110) for generating the second bit stream is a differential encoder.

***Allowable Subject Matter***

4. Claims 9, 13-27, 32, 34 and 35 are allowed.

***Conclusion***

5. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
